```cpp
#include<iostream>

using namespace std;

int main(){

        int number;

        cout<<"Enter Number to Check Odd or Even: ";

        cin>>number;

        if(number%2==0) cout<<"Even";

        else cout<<"Odd";

        return 0;

}
```
